2. INDIVIDUAL INCOME TAX

South Carolina's income tax follows the federal income tax laws. South Carolina generally accepts the adjustments, exemptions and most deductions allowed on your federal return. Your federal taxable income is the starting point in determining your state income tax liability.

You may be required to file a South Carolina income tax return if you earn income in South Carolina and are required to file a federal return. Even if you are not required to file a federal return and you have taxes withheld from your wages, you should file a state income tax return in order to obtain a refund.

For calendar year taxpayers, individual income tax returns are due on April 15 of each year.

You may have to pay estimated tax payments on income that is not subject to withholding such as self-employment, interest or prizes, or if enough tax is not being withheld from your salary, pension or other income.

STATE COMPARISON OF INDIVIDUAL INCOME TAX RATES

Footnotes:

- (a) 2015 tax information.
- (b) For single taxpayers with AGI below \$20,000, the standard deduction is \$2,500. This standard deduction amount is reduced by \$25 for every additional \$500 of AGI, not to fall below \$2,000. For married taxpayers filing jointly with AGI below \$20,000, the standard deduction is \$7,500. This standard deduction amount is reduced by \$175 for every additional \$500, not to fall below \$4,000. For all taxpayers claiming a dependent with AGI below \$20,000, the dependent exemption is \$1,000. This amount is reduced to \$500 per dependent for taxpayers with AGI above \$20,000 and below \$100,000. For taxpayers with over \$100,000 AGI, the dependent exemption is \$300 per dependent.
- (c) Applies to interest and dividend income only.
- (d) Rates apply to individuals earning more than \$75,000. Two special tax tables exist for low- and middle-income individuals. One for individuals below \$21,000 in income, and one for those between \$21,000 and \$75,000.
- (e) Bracket levels adjusted for inflation each year. Release dates for tax bracket inflation adjustments vary by state and may fall after the end of the applicable tax year.
- (f) These states allow some or all of federal income tax paid to be deducted from state taxable income.
- (g) Ohio's personal and dependent exemptions are \$2,200 for an AGI of \$40,000 or less, \$1,950 if AGI is between \$40,001 and \$79,999, and \$1,700 if AGI is \$80,000 or above.
- (h) The top rate is scheduled to be reduced to 4.85% in subsequent tax years, contingent upon certain revenue growth.
- (i) Tied to federal tax system, plus an additional \$2,500 if federal AGI is equal to or less than \$36,667 (single) or \$55,000 (married filing jointly).
- (j) Exemptions are phased out by 2% for every \$2,500 in income above \$150,000.
- (k) The phase-out range for the personal exemption and deduction is \$192,700 \$214,700. The exemptions and deductions are completely phased out at modified federal AGI of \$214,700.
- (I) The standard deduction is taken in the form of a nonrefundable credit of 6% of the federal standard or itemized deduction amount, excluding the deduction for state or local income tax. This credit phases out (in 2014) at 1.3 cents per dollar above \$13,590 of AGI (\$27,180 for married couples).
- (m) The standard deduction phases out by 12% at \$14,800 for single filers and 19.778% at \$21,360 for married taxpayers filing jointly. The standard deduction phases out to zero at \$100,383 for single filers, \$117,477 for joint filers.
- (n) Standard deduction and personal exemptions are combined: \$4,500 for single filers and married taxpayers filing separately; \$9,000 for married taxpayers filing jointly and heads of household.
- (o) The standard deduction is 15% of income with a minimum of \$1,500 and a cap of \$2,000 for single filers, married filing separately filers and dependent filers earning more than \$13,333. The standard deduction is a minimum of \$3,000 and capped at \$4,000 for married filing jointly filers, head of household filers and qualifying widowers earning more than \$26,667.
- (p) Deduction or exemption tied to federal tax system. Federal deductions and exemptions are indexed for inflation.
- (q) Montana filers' standard deduction is 20% of AGI. For single taxpayers, the deduction must be between \$1,940 and \$4,370. For married taxpayers, the deduction must be between \$3,880 and \$8,740.
- (r) Tax Credit instead of a deduction.
- (s) Exemption credits phase out for single taxpayers by \$6 for each \$2,500 of AGI above \$178,706 and for joint filers by \$12 for each \$2,500 of AGI above \$357,417. The credit cannot be reduced to below zero.
- (t) Connecticut, New York, and Nebraska have "tax benefit recapture," by which many high-income taxpayers pay their top tax rate on all income, not just on amounts above the benefit threshold.
- (u) Connecticut taxpayers are also given a personal tax credit based upon certain income constraints, which completely phases out by \$1,000 for every \$1,000 of AGI over \$30,000.
- (v) In addition to the personal income tax rates, Delaware imposes a tax on lump-sum distributions.
- (w) Additionally, Hawaii allows any taxpayer, other than a corporation, acting as a business entity in more than one state who is required by this chapter to file a return to elect to report and pay a tax of 0.5% of its annual gross sales (1) where the taxpayer's only activities in this state consist of sales; and (2) who does not own or rent real estate or tangible personal property; and (3) whose annual gross sales in or into this state during the tax year is not in excess of \$100,000. Haw. Rev. Stat. § 235-51 (2015).
- (x) \$1,000 is a base exemption. If dependents meet certain conditions, filers can take an additional \$1,500 exemption for each.
- (y) The exemption amount has the following phase out schedule: If AGI is above \$100,000 but below \$125,000, the exemption is \$1,600; if AGI is above \$125,000 but below \$150,000, the exemption is \$800; if AGI is above \$150,000, there is no exemption.
- (z) Federal Taxable income is the starting point for North Dakota, so the federal standard deduction and exemptions are built in.
- (aa) The personal exemption credit is not allowed if federal AGI exceeds \$100,000 for single filers or \$200,000 for joint filers.

JOB DEVELOPMENT AND TRAINING CREDITS

Employers who create at least 10 jobs and make capital investments in the state may apply to the Coordinating Council for Economic Development to receive a portion of their withholding dollars as a refundable credit pursuant to a Revitalization Agreement.

Retraining credits may also be approved for certain employers. Credits are paid quarterly only after job creation and certification of investment. The amount of the credit varies depending upon the economic development status of the county where the jobs are created. The SCDOR administers the credit applications.

3. CORPORATE INCOME TAX

The corporate tax rate is 5%. The starting point in determining South Carolina taxable income is federal taxable income with certain South Carolina modifications subject to allocation and apportionment. This process means that multi-state corporations must directly allocate certain non-business related items of income and gains and losses from the sale of real estate on Schedule F and apply an apportionment ratio from Schedule M to all income remaining after allocation.

Corporations manufacturing, selling, renting or dealing in tangible personal property (except for repair) use an apportionment ratio based on sales alone. Most other corporations including financial businesses, service businesses, doctors, architects, installation and repair businesses and contractors use a gross receipts apportionment ratio. Railroads, telephone companies, pipeline companies, airlines, and shipping lines use special apportionment methods. A corporation may petition for, or the Department may require, another apportionment method if the other method does not fairly represent the extent of the corporation's business activity. Also, in certain circumstances the Department may enter into an incentive agreement with a corporation establishing an alternative allocation and apportionment method for 5 years or 10 years.

Return and estimated tax payment due dates are the same as the federal requirements. Estimated tax payment rules are similar to federal rules.

CORPORATE LICENSE FEE

Corporations (and other entities taxed for income tax purposes as corporations) must pay an annual license fee. For most corporations, the license fee is \$1.00 for every \$1,000.00 of capital stock and paid-in surplus plus \$15.00. Certain companies, such as power, gas, waterworks, telephone, and express companies, must calculate their license fees on the basis of South Carolina gross receipts and property. Multi-state corporations use the apportionment ratio to arrive at the license fee. The minimum license fee is \$25.00.

An initial license tax of \$25.00 is paid with the initial annual report (CL-1).

<u>Note:</u> Figures are based on unaudited returns. Number of returns and amounts are for income tax returns processed during FY 16-17 regardless of the tax year. In some cases, returns for multiple tax years were processed during the fiscal year. The total for each return may include carryovers from prior years. Income tax credits for pass-through entities are included in the individual income tax credits. The total number of credits does not equal the total number of returns claiming credits because taxpayers may take multiple credits on a single return.

^{**}Total credit carryforwards are for current returns that have claimed a credit for FY 16-17

4. SALES AND USE TAX

Sales tax is imposed on the sale of goods and certain services in South Carolina. Use tax is imposed on goods and certain services purchased out of state and brought into South Carolina on which no sales tax has been paid. The statewide sales and use tax rate is 6%. Counties may impose an additional 1% local option sales and use tax and other 1% special local taxes if voters in the county approve the tax. Generally, all retail sales of tangible personal property are subject to the state's sales or use tax.

Sales Tax:

South Carolina imposes a 6% sales tax on the gross proceeds of sales of every person engaged in the business of selling tangible personal property at retail. The retailer is liable for the tax. The sales tax is also imposed on the fair market value of items originally purchased at wholesale that are withdrawn for use by the business or by any person withdrawing the property.

Use Tax:

South Carolina imposes a 6% use tax on the sales price of tangible personal property purchased at retail for storage, use, or other consumption in South Carolina, regardless of whether the retailer is engaged in business in South Carolina. The use tax is the liability of the purchaser. South Carolina allows a credit against the use tax due in South Carolina for the state and local sales or use tax due and paid in another state on purchases of tangible personal property.

Enacted: 1951

Statute: Title 12, Chapter 36

LOCAL EDUCATION CAPITAL IMPROVEMENT TAX

Seven counties in South Carolina impose an additional 1% local education capital improvement tax (ECI). The school district or school districts within a county may impose a 1% sales and use tax within the county for specific education capital improvements for the school district for not more than 15 years. The tax is authorized under Code Section 4-10-410 et. seq. (Act No. 316 of 2008) and must be approved by a referendum open to all qualified electors residing in the county. Pursuant to a memorandum of agreement, a portion of the revenue may be shared with the area commission (governing body of a technical college) or higher education board of trustees (governing body of a public institution of higher learning) or both, for specific education capital improvements in the county listed in the referendum. This tax may only be imposed in counties which have collected at least \$7 million in state accommodations taxes in the most recent fiscal year for which data is available. Once the threshold is met, a county remains eligible to impose this tax. This tax may not be imposed in a county that is imposing or is scheduled to impose a local sales and use tax for public school capital improvements.

8. PROPERTY TAX

Most property taxes are administered and collected by local governments, with assistance from the SCDOR to ensure equitable and uniform assessments throughout the State. Real and personal property are subject to the tax. Municipalities levy a tax on property situated within the limits of the municipality for services provided by the municipality. The tax is paid by individuals, corporations, partnerships, etc. who own property within the state.

Real and personal property of manufacturers, utilities, railroads, carlines and airlines and business personal property of merchants are assessed by the SCDOR. The county assessor assesses all other real property and the county auditor assesses all other personal property.

Each class of property is assessed at a ratio unique to that type of property. The assessment ratio is applied to the market value of the property to determine the assessed value of the property. Each county, municipality or other taxing entity then applies its millage rate to the assessed value to determine the tax due. A mill is a unit of monetary value, equal to one-tenth of a cent, or one-thousandth of a dollar (.001).

The following assessment ratios are applied to the value of the property to determine the assessed value for purposes of taxation:

Business Personal Property 10.5%

Manufacturing Property 10.5% of FMV of real property

Utility Property 10.5% of FMV

Railroads, Private Carlines, Airlines and Pipelines 9.5% of FMV

Primary Residences 4.0% of FMV

Agricultural Property (privately owned) 4.0% of use value

Agricultural Property (corporate owned) 6.0% of use value

Other real estate 6.0% of FMV

Vehicles (privately owned) 6.0%

BUSINESS PERSONAL PROPERTY TAX

All businesses assessed by the SCDOR are required to file an annual business personal property tax return with the Department. All furniture, fixtures and equipment are to be reported at acquisition cost with a deduction allowed for depreciation not to exceed 90%.

Telecommunications companies that have certificates issued by the PSC must continue to remit their contributions to ORS.

Prepaid wireless sellers must collect USF contributions from consumers for prepaid wireless communications services. This fixed per-transaction fee is established annually by ORS. Prepaid wireless sellers must collect the USF contribution on each retail transaction occurring in South Carolina.

Prepaid wireless sellers may retain 3% of the gross USF contribution as an administrative fee.

Dual Party Relay Charge: Code Section 58-9-2530 authorizes the Public Service Commission (PSC) to require local exchange carriers to collect and remit a dual party relay charge. The PSC may require each local exchange provider, Commercial Mobile Radio Service (CMRS) provider, Voice over Internet Protocol (VoIP) service provider and prepaid wireless seller to impose a dual party relay charge not to exceed 10 cents (reduced from 25 cents). The charge will fund a dual party relay system that allows deaf, hearing or speech impaired users to communicate with an intermediary who orally relays the message or request to a third party.

No other tax, fee, surcharge, or other charge for dual party relay system funding may be imposed by any State entity.

Rules are provided for sourcing transactions, limiting the number of charges in certain instances, and addressing situations where services overlap.
